

I am writing you concerning the expansion of LPFM stations. I am concerned about this as I understand a radio station I listen to K-LOVE is threatened by this. K-Love is the only station I listen to. It is the only station that fits my morals and values. It promotes families, has no obscenities and is a Christian station. My whole family listens to this station. At a time when the FCC is looking at fining more and more radio and TV programs for inappropriate actions, K-Love is a station that you will never need to worry about inappropriate actions. Please leave this one venue of appropriateness in place. Kids these days have so many bad influences being pushed on them do not take this one away. Thank you for your consideration.
